

May 13th, 2010 - Bucharest, Romexpo, Nicolae Titulescu Hall

International Conference: Romania - SOLAR Business Opportunity

Organized by APSNE SUNE and ROMEXPO, under the aegis of MDRT, the Conference is held during the two exhibitions devoted to construction: CONSTRUCT EXPO ANTREPRENOR and AMBIENT. Therefore, the event is positioned in the interference space with construction, architecture and future energy by integrating in building the new and renewable sources of energy production. The conference provides a platform for collaboration and economic development in an innovative way: business opportunity in the solar field.

Conference aim:

- To bring together the solar sector actors in Europe (industry, decision makers and opinion leaders) and the ones involved in this sector in Romania;
- To provide models, advices, examples of good practice that will be directly reached by decision makers, local government, consultants, designers, architects and installers involved in meeting EU directives;
- To achieve concrete actions to ensure conditions for the solar sector development in Romania.

Event theme:

- Adapting the legal framework for producing electricity and heat using solar power with details regarding the local production, in the construction field;
- Training specialists and adapting their preparation to the new European requirements;
- Increase the energy performances of buildings by full approach of energy efficiency principles, decentralized energy production and EPBD. Model role of public buildings at national, regional and local levels since 2012.

Conference speakers:

- Representatives from agencies, organizations and business with experience at European level– SOLAR;
- Representatives of national ministries involved in development of Solar: ANRE, MDRT, MMP, MECMA, MAI, MA, Deputy Chamber;
- Representatives from companies with experience in the Romanian solar field;
- Leaders of groups and organizations concerned to develop the solar industry in Romania.

Conference organised with occasion of EXPOCONSTRUCT FAIR - 11 - 15 May and SOLAR DAY - 1 - 16 May
